

Individuality
a picture inspired poem
by Su Gerheim

July 20, 2008

Nature's pink evokes a taste
Just by adding a swirl
Peppermint so crisp and chaste
Centered with a twirl

Created under artist's brow
Unique among its own
Like nature adding her know-how
To touch what she has grown

To every living thing around
She gives a little twist
No duplicates can be found
Each time she flicks her wrist
